I.V. Cannula - AZflon
I . V . Cannula
with Port & wings
Sizes : 14 G To 26 G

Common features

- Special tapered & kink resistant FEP radiopaque catheter for easy insertion with optimal flow rates
- Flexible wings to provide easy & secure fixation
- Manufactured from tested biocompatible materials offering longer indwelling time
- Rounded grip On needle hub for better support during insertion
- Injection port with non-return silicon valve for intermittent medication
- Transparent flashback chamber for easy visual confirmation of venipuncture
- Options available:
  - PUR catheter
  - Hydrophobic bacteria retention filter

Three Way Stop Cock

- For pressures up to 4.5 bar (65 psi)
  - 360° rotation
- Handle colour Light Blue

**Common features**

- Crystal clear transparent channel
- Minimum priming volume required for accurate drug administration
- Rotating male luer and two female luer connectors
- Arrow indication on the handle to indicate the direction of flow
- Connection meets 6% taper requirement to ensure leakage free fitment
Three Way Stop Cock With Extension Tube

- Extension line with three way stop cock at one end & male luer lock connector at other end
- Soft, frosted & kink resistant PVC tubing provides uninterrupted fluid movement
- Tube length: 10, 25, 50, 80, 100, 150 & 200 cm
  - Extension Tube dia: I Ø 3.0 mm, O Ø 4.1 mm
- Available with rotating Luer Lock

Common features

- Crystal clear transparent channel
- Minimum priming volume required for accurate drug administration
- Rotating male luer and two female luer connectors
- Arrow indication on the handle to indicate the direction of flow
- Connection meets 6% taper requirement to ensure leakage free fitment
CVP Manometer

- Specially designed to measure and monitor continuous or intermittent, central venous pressure
  - Manometer tube with graduations marked from -4 cm to +34 cm and attached to three-way stopcock
  - 120 cm long extension tube is fitted with female luer lock on one end and male luer lock on the other end for safe connection to Central Venous Catheter
  - Sliding indicator is provided to record reading
  - Moulded clamps with latex rubber strings are provided for fixation to IV stand
  - Y Injection site/Latex rubber flash bulb is provided for extra medication
  - Individually packed

Obturator

**Stylet / Mandarin with luer lock**
- Device is used in conjunction with I.V. Cannula for its long term closure
- Colour coded for easy identification of sizes
- Sizes: 14 G to 22 G
I.V. Flow Regulator

- Precise flow rate control of IV fluids with range of 5 to 250 ml/hr
  - With “Y” injection port (latex or ) for intermittent medication
  - Also available with thumb support “Y” injection port and Needle free “Y” site
- Soft & kink resistant PVC tubing
- Male luer connector at one end and female luer connector at other end
  - Standard tube length : 20 cm without “Y” site & 40 cm with “Y” site
  - Tube dia : l Ø 3.0 mm, O Ø 4.1 mm
I.V Infusion Sets

1) I.V. Infusion Set with Airvent

- Sharp and easy piercing air vented spike
- Bacteria retentive air inlet with snap on cap
- Transparent drip chamber
- Approximately 20 drops/ml

Common features

- For gravity feed only
- Transparent & flexible drip chamber
- 15 micron fluid filter in drip chamber
- Soft and kink resistant PVC tubing ensure uniform flow rate
- Smooth roller clamp facilitates easy, safe control and adjustment of fluid rates
- Standard tube length : 150 cms
- Tube dia : I Ø 3.0 mm, O Ø 4.1 mm

- Options available :
  - With or without needle
  - Luer lock or rotating luer lock

- “Y” injection port (latex free) designed for multiple injections

- Needle free Y-site
- Plastic pack or blister paper pack

*All IV Infusion sets are available with DEHP free materials also.
I.V Infusion Sets

2) I.V. Infusion Set with Micro Drip

- Micro I.V. Infusion set for pediatric use
- Approximately 60 drops/ml

Common features

- For gravity feed only
- Transparent & flexible drip chamber
- 15 micron fluid filter in drip chamber
- Soft and kink resistant PVC tubing ensures uniform flow rate
- Smooth roller clamp facilitates easy, safe control and adjustment of fluid rates
- Standard tube length : 150 cms
- Tube dia : I Ø 3.0 mm, O Ø 4.1 mm

Options available:
- With or without needle
- Luer lock or rotating luer lock

- “Y” injection port (latex free) designed for multiple injections

- Needle free Y-site
- Plastic pack or blister paper pack

*All IV Infusion sets are available with DEHP free materials also.
I.V Infusion Sets

3) I.V. Infusion Set without Airvent

- I.V. Infusion set without air vented spike
- Approximately 20 drops/ml

Common features

- For gravity feed only
- Transparent & flexible drip chamber
- 15 micron fluid filter in drip chamber
- Soft and kink resistant PVC tubing ensures uniform flow rate
- Smooth roller clamp facilitates easy, safe control and adjustment of fluid rates
- Standard tube length : 150 cms
- Tube dia : I Ø 3.0 mm, O Ø 4.1 mm

Options available:
- With or without needle
- Luer lock or rotating luer lock

- “Y” injection port (latex free) designed for multiple injections
- Needle free Y-site
- Plastic pack or blister paper pack

*All IV Infusion sets are available with DEHP free materials also.*
I.V Infusion Sets

4) I.V. Infusion Set with Flow Regulator

- Sharp and easy piercing air vented spike
- Flow regulator integrated with IV infusion set for precise flow control
- Flow rate 5ml/hr to 250ml/hr
- Approximately 20 drops/ml

Common features

- For gravity feed only
- Transparent & flexible drip chamber
- 15 micron fluid filter in drip chamber
- Soft and kink resistant PVC tubing ensures uniform flow rate
- Smooth roller clamp facilitates easy, safe control and adjustment of fluid rates
- Standard tube length : 150 cms
- Tube dia : I Ø 3.0 mm, O Ø 4.1 mm

Options available:
- With or without needle
- Luer lock or rotating luer lock
- “Y” injection port (latex free) designed for multiple injections
- Needle free Y-site
- Plastic pack or blister paper pack

*All IV Infusion sets are available with DEHP free materials also.
Extension Tubes

1) Low Pressure Extension Line

- Extension line suitable for low pressure applications
- For pressures up to 4.5 bar (65 psi)
- Also available with “Y” injection port (latex or latex free) for intermittent medication
- Available with or without clamp
- Tube dia: I Ø 3.0 mm. & O Ø 4.1 mm

Common features

- Male luer lock at one end & female luer lock at other end
- Tube lengths: 25, 50, 100, 150 & 200 cm
Extension Tubes

2) High Pressure Extension Line

- Small bore high pressure extension line suitable for high pressure monitoring
- Kink resistant PVC tubing
- For pressures up to 55 bar (800 psi)
- Capacity: 1.0 ml per 100 cm

Common features

- Male luer lock at one end & female luer lock at other end
- Tube lengths: 25, 50, 100, 150 & 200 cm
Extension Tubes

3) PVC Free High Pressure Extension Line

- Kink resistant PE tubing
- Tube dia: I Ø 1.0 mm. & O Ø 2.0 mm
- Tube dia: I Ø 1.5 mm. & O Ø 3.0 mm

Common features

- Male luer lock at one end & female luer lock at other end
- Tube lengths: 25, 50, 100, 150 & 200 cm
Extension Tubes

4) PVC Free High Pressure Extension Line (Coiled)

- Flexible kink resistant PE tubing
- Capacity: 1.70 ml
- Length: 200 cm, 300 cm & 400 cm
- Tube dia: I Ø 1.0 mm & O Ø 2.0 mm
**Burette Set**

*Measured Volume Fluid Administration Set*

- Transparent, soft, cylindrical & calibrated measured volume chamber with bold marking scale
- Bacteria retentive air inlet
- Injection port for intermittent medication
- Automatic shut off valve prevents air trapping in the fluid line once the measured volume chamber is empty, and it also indicates the level of liquid
- 15 μm fluid filter to reduce particulate matter
- Approximately 60 drops/ml
- Soft and kink resistant PVC tubing
- Standard tube length: 150 cm
- Tube dia: I Ø 3.0 mm & O Ø 4.1 mm
- Available in size: 100 ml, 110 ml, 150 ml

**Common features**

**Options available:**
- With or without needle
- Luer lock or Luer Slip or Rotating luer lock

- Inbuilt injection port Self sealing “Y” injection port

- Latex Free designed for leakage free multiple injections
- Moulded latex flush bulb for intermittent medication
- **Needle free “Y”-Site**
- Plastic pack or blister pack

( Unit of ABZ Group since 1990 )
Guedel Airway

Oro-Pharyngeal Airway

- Suitable for maintaining an unobstructed oropharyngeal airway during general anaesthesia and in unconscious patients
- Bite block to prevent biting of tongue and airway occlusion
- Rounded atraumatic edges
- Smooth airway path for easy cleaning
- Color coded for easy identification of sizes
- Sizes: 000, 00, 0, 1, 2, 3, 4, 5

Suction Catheters

1) Standard Connector
Suction Catheters

2) Thumb control connector
Suction Catheters

3) Finger tip control connector

- For removal of secretion from trachea and bronchial region
- Soft, frosted and kink resistant PVC tubing with maximum patient comfort
- Atraumatic, soft & rounded open tip with two lateral eyes
- Color coded connector for easy identification of size
- Length : 50 cms
- Sizes : 5 FG to 24 FG
Twin Bore Nasal Oxygen Cannula

- Suitable for easy and efficient administration of oxygen
- Star lumen main tube to avoid accidental blockage
- Soft and kink resistant PVC tubing
- Soft twin prong nasal tips to ensure equal distribution of oxygen through both air passages which provides maximum patient comfort
- Available sterile or non sterile
- Tube length: 200cm
- Sizes: Adult, Pediatric & Neonatal
Spinal Needle

- Suitable for Spinal anaesthesia
- Conical tip imparts superior tactile feedback
- High flow rate enables faster Cerebro Spinal Fluid (CSF) flashback
- Aggressive anesthetic distribution upon injection
- Clear polycarbonate hub offers easy visualization
- Available in Whitacre pencil point and Quincke point
- Sizes: - 16 G to 27 G x 3.5 Needle
Oxygen Catheter

- Suitable for direct administration of oxygen through the naso pharynx
- Funnel connector at proximal end
- Open distal end with multiple lateral eyes
- Soft, frosted & kink resistant PVC tubing
- Colour coded funnel end for easy size identification
- Tube length: 40 cm
- Sizes: 6 FG to 16 FG
Endotracheal Tubes

1) Endotracheal Tube (Cuffed)

- Provided with soft cuff based on high volume and low pressure at the distal end
- Non-return valve with pilot cuff for easy assessment of the pressure in the main cuff
- Murphy eye at distal end for atraumatic intubation and extubation

Common features

- Made of special thermo sensitive material readily conforming to body curvatures at body temperature.
- Proximal end fitted with standard 15 mm connector
- Radio opaque line on the tube to facilitate easy location of tube.
Endotracheal Tubes

2) Endotracheal Tube (Plain)

- Nasal / oral tip suitable for nasal / oral intubations

Common features

- Made of special thermo sensitive material readily conforming to body curvatures at body temperature.
- Proximal end fitted with standard 15 mm connector
- Radio opaque line on the tube to facilitate easy location of tube.

Oxygen Mask

Variable Concentration Mask

- Suitable for oxygen therapy
- Swivel connector for patient comfort

Common features

- Elongated facemask for long term use
- Clear and soft mask for patient comfort
- Adjustable elastic strip and integrated nose clip for proper positioning of mask
- 210 cm long star lumen tubing to ensure continuous flow of oxygen
- Proximal end of tube is connected with funnel shape connector for easy connection with oxygen source
- Star lumen main tube to avoid accidental blockage
- Sizes: Adult and pediatric
Nebulizer Mask

Aerosol Therapy Mask

- Specially designed nebulizer chamber with nebulization rate of approximately 3cc in 10 minutes
- Average particle size generation is approximately 2 microns
- Complete kit consists of: Nebulizer Mask, Nebulizer Chamber, and 210 cm Star Lumen tubing

Common features

- Elongated facemask for long term use
- Clear and soft mask for patient comfort
- Adjustable elastic strip and integrated nose clip for proper positioning of mask
- 210 cm long star lumen tubing to ensure continuous flow of oxygen
- Proximal end of tube is connected with funnel shape connector for easy connection with oxygen source
- Sizes: Adult and paediatric
Venturi Mask

**Fixed Concentration Mask**

- Easy adjustable, variable venturi system ensures fixed & accurate concentrations of oxygen
- Color Coded, air entrainment low and medium concentration diluters
- Low concentration (Green colour) diluter allows settings of approximately 24%, 26%, 28% & 30%
- Medium concentration (white colour) diluter allows settings of 35%, 40% & 50%

**Common features**

- Elongated facemask for long term use
- Clear and soft mask for patient comfort
- Adjustable elastic strip and integrated nose clip for proper positioning of mask
- 210 cm long star lumen tubing to ensure continuous flow of oxygen
- Proximal end of tube is connected with funnel shape connector for easy connection with oxygen source
- Sizes: Adult and paediatric
Respiratory Exerciser

- Innovative system for respiratory exercise through inspiration
- Helps to develop, improve and maintain respiratory fitness
- Useful in restoring and maintaining lungs capacity of post operative ambulatory and COPD patients
- Provided with unique handle for easy holding while exercising
- Attractive design with color coded balls for easy identification of 1200cc, 900cc & 600cc breathing capacity to provide more efficient exercise to patient at a step up basis
- Innovative design, can be dismantled into parts for cleaning & disinfection
- Tube holder to hold flexible tube while not in use
Fistula Needles

- To connect blood lines with the blood vessels through needles when dialysis is carried out by creating an internal fistula

**Common features**

- Siliconised ultra thin walled & sharp beveled back eyed needle to minimize trauma to the patient
- Soft, frosted and kink resistant PVC tubing
- Back eye needle to minimize interruption of blood flow
- Flexible color coded butterfly wing for proper fixation
- With fixed/rotating wing
- Fistula needle length : 30 cm
- Tube length : 15 cm, 20 cm, 30 cm
- Sizes : 15 G, 16 G & 17 G
Peritoneal Dialysis Set

- Suitable for performing peritoneal dialysis in patients of all age groups.
- Perforated open-end catheter manufactured from polypropylene
- Stainless steel trocar is provided to facilitate smooth penetration
- Scalpel blade is provided for the incision
- The trocar and the tip of the catheter are perfectly matched to facilitate trauma free insertion
- Latex flash bulb is provided on the junction unit for additional medication
- Complete kit comes in tray pack in peelable pouch
- Available in both Adult and Child model
Peritoneal Dialysis Transfusion Set

- Y-shaped set for administration of dialysis fluid
- Provides continuous fluid movement with quick change over of fluid bottles
- Available with sharp and easy piercing air vented spike

Ryle’s Tube

Nasogastric feeding Tube

- For nasogastric introduction of nutrition and aspiration of intestinal secretion
- Closed distal end coned with radio-opaque material for accurate placement
- Four lateral eyes
- Tube with radio-opaque line, marked at 50, 60 and 70 cm from the tip for accurate placement
- Soft, frosted and kink resistant PVC tubing
- Color coded funnel end connector for easy identification of size
- Available with or without luer connector
- Length: 105 cm
- Sizes: 6 FG to 24 FG
Levin’s Tube

Gastro-Duodenal Feeding Tube

- For gastro-intestinal feeding and aspiration
- Closed distal end with four lateral eyes
- Tube with radio-opaque line, marked at 45, 55, 65 and 75 cm from the tip for accurate placement
- Soft, frosted and kink resistant PVC tubing
- Color coded funnel end connector for easy identification of size
- Length: 125 cm
- Sizes: 6 FG to 24 FG
Infant Feeding Tube

For Pediatric & Neonatal Use

- For neonatal and pediatric nutritional feeding
- Closed distal end with two lateral eyes
- Tube with radio-opaque line, marked at 20 cms from the tip for accurate placement
- Soft, frosted & kink resistant PVC tubing
- Also available in female flexible mount & luer lock
- Length: 40, 50 & 100 cm
- Sizes: 4 FG to 10 FG
Mucus Extractor

- For aspiration of secretion from oropharynx to ensure free respiration in newly born babies

Common features

- For aspiration of secretion from oropharynx to ensure free respiration in newly born babies
- Convenient to extract mucus specimen for microbiological examination
- Separate screw top lid for safe sealing and handling of aspirate
- Soft, frosted & kink resistant PVC tubing
- Also available with thumb control suction catheter
- Capacity: 25 ml, 40 ml, 100 ml, 175 ml
- Suction Tube lengths available: 40 & 50 cm
- Suction Tube sizes: From 6 FG to 14 FG
Umbilical Catheter

- Atraumatic, soft rounded open distal tip to reduce vascular trauma
- Tube with radio-opaque line, marked at every cm from 5 to 25 cm from the open distal tip for accurate placement
- Can be used with venous or arterial routes for infusion, transfusion, administration of medication, blood sampling, pressure measurement etc.
- Soft, frosted and kink resistant PVC tubing
- Available in female flexible mount and luer lock
- Color coded funnel end connector for easy identification of size
- Length: 40 cm
- Sizes: 4, 5, 6 & 8 FG
## Central Venous Catheters

- **CVC Kit**

### Complete CVC kit consist of:

<table>
<thead>
<tr>
<th>Item</th>
</tr>
</thead>
<tbody>
<tr>
<td>Indwelling catheter</td>
</tr>
<tr>
<td>Extension line clamp</td>
</tr>
<tr>
<td>J-Tip guide wire</td>
</tr>
<tr>
<td>Introducer needle (Y type)</td>
</tr>
<tr>
<td>Injection cap</td>
</tr>
<tr>
<td>Scalpel</td>
</tr>
<tr>
<td>Catheter holder clamp</td>
</tr>
<tr>
<td>Catheter holder</td>
</tr>
<tr>
<td>Luer lock syringe</td>
</tr>
<tr>
<td>Vessel dilator</td>
</tr>
</tbody>
</table>

### Common features of Central Venous Catheter

- Central Venous Catheter made from Polyurethane provides strength during insertion and softens at body temperature
- Soft & beveled tip for smooth & easy insertion of catheter
- Flexible J-Tip Guide wire provides good torque to ensure firm insertion
- Radio-opaque catheter with clear, definite marking facilitates correct placement of catheter tip
- CVC Kit blister packed
J Tip Guide Wire
Y Introducer Needle
Scalpel

* Other sizes available on request
Blood Administration Set without Air Vent

Common features

- For transfusion of blood or blood components
- Transparent & flexible drip chamber
- Approximately 20 drops/ml
- Soft and kink resistant PVC tubing
- With 200 micron blood filter
Blood Administration Set with Air Vent

Common features

- For transfusion of blood or blood components
- Transparent & flexible drip chamber
- Approximately 20 drops/ml
- Soft and kink resistant PVC tubing
- With 200 micron blood filter
Yankauer Suction Set

- Suitable for pre-operative removal of secretion and body fluids
- Cut to fit funnel connector to suit different suction pump lines at proximal end. Also available with Kapkon and Conical connector at proximal end
- Standard funnel connector at distal end of tubing to connect Yankaur Handle
- Yankur Handle is open end with 4 lateral eyes to withstand negative pressure and ensures continuous and easy suction of fluid
- Yankaur Handle available in standard or crown tip with or without Vacuum thumb control
- Soft and kink resistant ribbed PVC tubing
- Tube dimensions: I.D. 6.0 mm, 7.0 mm & O.D. 8.5 mm, 10.0 mm
- Tube length: 210 cm, 250 cm and 300 cm
- Also available in following lengths 250 cm, 400 cm & 500 cm
Spring Loaded Suction Unit

- Closed wound drainage system with spring bellow suitable for drainage under negative pressure post operatively with the options to operate one or two catheters simultaneously.
- Sizes of Bellow Chamber: 200 & 400 ml

Common features

<table>
<thead>
<tr>
<th>Unit consists of:</th>

</tr>
<tr>
<td>• Spare perforated Redon drain catheter</td>
</tr>
<tr>
<td>• Sizes for accessories: 10, 12, 14, 16 &amp; 18 FG</td>
</tr>
</tbody>
</table>
Close Wound Suction Unit

- Suitable for close wound drainage under negative pressure post operatively with the option to operate one or two catheters simultaneously
- Graduated Bellow Chamber
- Sizes of Bellow Chamber: 600 & 800 ml

**Common features**

<table>
<thead>
<tr>
<th>Unit consists of:</th>

<tr>
<td>Sizes for accessories: 10, 12, 14, 16 &amp; 18 FG</td>
</tr>
</tbody>
</table>
Mini Close Wound Suction Unit

- Specially designed for wound drainage under negative pressure
- Used for minor surgery and plastic surgery
- Bellow container capacity: 50ml
- Sizes: 6 & 8 FG
Redon Drainage Catheter

- Provided with radio-opaque line and smooth eyes
- Cross perforated length of tube: 14 cm
- Markings on the tube at 19 cm from the distal tip
- Soft, frosted & kink resistant PVC tubing
- Length: 50, 70, 120 & 170 cm
- Sizes: 8, 10, 12, 14, 16 & 18 FG
Umbilical Cord Clamps

- Specially designed clamp with provision to avoid slippage of umbilical cord after clamping

Common features

- Suitable for clamping the umbilical cord after birth
- Security lock to prevent accidental opening after clamping
- Grooved clamping area to prevent slipping of the umbilical cord
- Available in blue and white colour
Thoracic Drainage Catheter with Trocar

- Catheter is provided with trocar for easy penetration, placement and handling
- Markings provided at 5, 10, 15 & 20 cm from the last eye to help ascertain depth of placement
- Two lateral eyes for efficient drainage
- Proximal end fitted with tapered connector for easy connection to the drainage bottle
- Soft, frosted and kink resistant PVC tubing
- Size: 8, 10, 12, 14, 16, 18, 20, 22, 24, 28, 32, 36, 40 FG
Thoracic Drainage Catheter - Angled (Curved)

- Suitable for effective drainage after cardio-thoracic & thoracic surgery
- Catheter is provided with curved (90 degree) angle for easy aspiration of drainage

**Common features**

- Atraumatic & rounded open distal end with smooth eyes
- Proximal end is fitted with pull through tapered tongue
- With radio-opaque line and markings at every 2 cm from the last eye
- Cross side eyes to prevent tissue aspiration
- Matching size connector for easy connection to the drainage system
- Soft, frosted and kink resistant PVC tubing
- Length: 45 cm
- Sizes: 8, 10, 12, 14, 16, 18, 20, 22, 24, 28, 32, 36 & 40 FG
Abdominal Drainage Set

- Soft abdominal drainage catheter with collection bag of 2000 ml. capacity
- Catheter with atraumatic & rounded open distal end & smooth eyes with markings at 2 cm interval from the last eye
- Sizes: 20, 24, 28, 32 & 36 FG
Under Water Seal Drainage System

- Under water seal drainage system for collection of drainage fluid from thoracic cavity
- Specially designed moulded handle for easy carrying and hanging of the bag
- PVC drainage bag with 1000 ml. capacity
- Soft and kink resistant PVC tubing
ABZ-Small

</table>

Common features

- Suitable for pleural drainage in conjunction with chest drainage catheters in cardio-thoracic procedures
- Polyseal adult is a double chamber compact unit having capacity of 2000 ml
- Clearly marked initial water level to ensure under water seal
- Clear easy to ready graduations marked on bottle to determine the amount of collection
- Write on facility on the side of scale helps in monitoring of drain volume
- Graduated bottle to determine the amount of collection
- Kink resistant large bore tubing facilities unrestricted flow
- Metallic hangers for easy attachment with bed and floor stand for easy standalone working
- Separate suction port is provided to connect with suction unit
- Sterile and packed in a box

Urine Collection Bags

ABZ Healthcare
( Unit of ABZ Group since 1990 )
1) Urine Collection Bag with NRV

- For short and long term urine collection
- Capacity: 2000 ml
- Available with specially molded handle for easy handling
- Also available with sampling port

Common features

- Soft and kink resistant PVC tubing
- With non-return valve
- Bag graduated in ml to indicate the quantity of urine collected
- Conical inlet connector with cap
- Tube length: 90 & 100 cm
- Available sterile or non sterile
Urine Collection Bags

2) Urine Collection Bag with handle and top outlet

- Available with handle for easy handling and top outlet
- Capacity: 2000 ml Tube length: 100 cm

Common features

- Soft and kink resistant PVC tubing
- With non-return valve
- Bag graduated in ml to indicate the quantity of urine collected
- Conical inlet connector with cap
- Tube length: 90 & 100 cm
- Available sterile or non sterile
Urine Collection Bags

3) Urine collection Bag with bottom outlet

- For short and long term urine collection
- Reinforced hole for hanging
- Capacity: 2000 ml

Common features

- Soft and kink resistant PVC tubing
- With non-return valve
- Bag graduated in ml to indicate the quantity of urine collected
- Conical inlet connector with cap
- Tube length: 90 & 100 cm
- Available sterile or non-sterile
Urine Collection Bags

4) Urine collection bag with T-type Bottom Outlet & sampling Port

- For short term urine collection
- For clean single hand operation and efficient emptying of the bag
- Capacity: 2000 ml

<table>

Urine Collection Bags

5) Urine collection bag - Leg Bag Set

- Provides freedom of mobility as the bag is attached to the leg of the patient
- Available with leg straps
- Capacity : 800 ml
- Tube length: 50cm

Common features

- Soft and kink resistant PVC tubing
- With non-return valve
- Bag graduated in ml to indicate the quantity of urine collected
- Conical inlet connector with cap
- Tube length : 90 & 100 cm
- Available sterile or non sterile
Urine Collection Bags

6) Urine collection bag with top outlet

- Capacity: 2000 ml

**Common features**

- Soft and kink resistant PVC tubing
- With non-return valve
- Bag graduated in ml to indicate the quantity of urine collected
- Conical inlet connector with cap
- Tube length: 90 & 100 cm
- Available sterile or non-sterile.
Urine Collection Bags

7 ) Urine collection bag with measured volume meter

- **Sampling port** provided for sample collection maintains closed system, reduces the chance of Urinary Tract Infection
- Conical inlet connector
- Capacity 250 ml, 500 ml

Common features

- Inlet tube length : 100 cm
- Capacity of urine collection bag : 2000 ml
- Capacity of measured volume meter 250 ml and 500 ml
- Soft, frosted and kink resistant PVC tubing
- With T-type Bottom outlet
Urine Collection Bags

8) Pediatric Urine Collection Bag

- For short term urine collection
- Suitable for both male and female infants
- Capacity: 100 ml
- Provided with special adhesive for better grip and easy removal from soft skin of the infants
Urine Drainage Catheters

1) Nelaton Catheter

- For short term bladder catheterization through urethra in males
- Length : 40 cms
- Sizes : 6 FG to 24 FG

<table>
<thead>
<tr>
<th>Common features</th>
</tr>
</thead>
<tbody>
<tr>
<td>- Soft and kink resistant PVC tubing</td>

</tr>
</tbody>
</table>
Urine Drainage Catheters

2) Rectal Catheter

- For introduction of enema solution into rectum to release/aspire rectal fluid
- Length: 40 cms
- Sizes: 18 FG to 32 FG

**Common features**

- Soft and kink resistant PVC tubing
- With non-return valve
- Bag graduated in ml to indicate the quantity of urine collected
- Conical inlet connector with cap
- Tube length: 90 & 100 cm
- Available sterile or non-sterile.
Urine Drainage Catheters

3) Female Catheter

- For short term bladder catheterisation through urethra in females
- Length : 18 cms
- Sizes : 6 FG to 20 FG

Common features

- Soft and kink resistant PVC tubing
- With non-return valve
- Bag graduated in ml to indicate the quantity of urine collected
- Conical inlet connector with cap
- Tube length : 90 & 100 cm
- Available sterile or non sterile.
Foley Balloon Catheter

- Made of Silicone elastomer bonded with latex rubber, which can be retained in body for longer duration
- Symmetrical foley balloon to ensure upright tip in urinary bladder for proper drainage of urine
- Two lateral burr free eyes to prevent the risk of injury and encrustation
- Hard plastic valve for trouble free inflation and deflation of balloon
- Color-coded for easy identification of size

Sizes Adult

- Two way: 12, 14, 16, 18, 20, 22, 24 FG
- Balloon Capacity: 30 ml

Sizes Pediatric

- Two way: 8, 10 FG
- Balloon Capacity: 3 - 5 ml
TUR Set

- Y-shaped set for Endoscopic irrigation during Trans Urethral Resection of prostate gland
- Manufactured from non-toxic, medical grade PVC
- Thumb operated clamps, help quick and smooth changeover of bottles
- Proximal end fitted with flexible latex tubing for easy connection to endoscope
- Sterile ready for use
